

Advanced Placement Bulletin

Licensed Psychiatric Technicians (LPT)

Welcome to the Associate Degree Registered Nursing Program

Contra Costa College's Associate Degree Nursing Program (ADN) has been graduating nurses since 1960. The program is designed to meet the college requirements for graduation with eligibility for an A.S. degree, as well as the requirements of the California Board of Registered Nursing. Contra Costa College is proud of its excellent program, faculty, simulation and skills labs, and the quality of its graduates.

A graduate of the nursing program is eligible to take the State Licensure Examination (NCLEX-RN). With passage of the exam, the title of Registered Nurse is earned and the graduate is qualified for entry level positions in nursing.

The LPT is an advanced placement applicant who has an active LPT license and is requesting to enter into the second semester of the nursing program. The second semester is offered in the spring only. Admission is based on space available.
