Q7: Our vision is tied to our mission. A mission statement describes who we are and what we will do to forward our vision; our objectives and our approach to reaching those objectives. Our values are our core beliefs and guiding principles that govern daily behavior and decision making. Ideally; our mission and values align. CCC's current mission statement; adopted in 2015; states: "Contra Costa College is a public community college serving the diverse communities of West Contra Costa County and all others seeking a quality education, since 1949. The College equitably commits its resources using inclusive and integrated decision-making processes to foster a transformational educational experience and responsive student services that ensure institutional excellence and effective student learning." The accreditation process has identified several areas in which the mission statement may be inadequate, including defining who CCC students are, what diversity means and they types of awards we offer. Do you believe we should update our mission statement to include these elements, and/or others?
