Enrollment Data: Distance Education

7c. If your institution experienced an increase (or decrease) in distance education enrollment of more than 50% in a single year, please explain below (Enter N/A if this does not apply to your institution.)

Due to the Covid pandemic, following the quarantine orders in March 2020, our college shifted to remote offerings for a majority of our courses to prioritize safety for our students, faculty, and classified professionals. This is seen in the 102% increase in distance ed courses in 2020-2021. In 2021-2022, we increased our face-to-face offerings slightly. However, due to low fill rates in these courses, we continued to offer a majority of remote courses.

Enrollment Data: Correspondence Education

8. Do you offer Correspondence Education?

Additional Comments

19. Please use this text box to provide any comments regarding the data submitted in this report (optional, no limit).

*While our graduation rate is 26%, our transfer rate is even higher at 32%.

*In the previous annual report we included certificates that were below 16 units. This report only includes certificates at or above 16 units.

*The college does not have a mechanism for tracking employment outcomes for any educational programs. The above data come from the CTE Core Indicator reports generated by the Chancellor's Office. The Job Placement Rates reflect the college's performance related to the "CTE Cohort" for each program. *Not Available means that there were less than 10 students in the cohort. As a result of this small sample size, employment outcomes could not be disclosed for privacy reasons.

By submitting this report on behalf of my institution, I confirm that the data and information contained herein is accurate and correct to the best of my knowledge. The institution acknowledges that knowingly submitting false or inaccurate data may result in notification to the U.S. Department of Education and/or accreditation action.
