Background: About the ACCJC Annual Report

In accordance with federal regulations and the Commission [Policy on Monitoring Institutional Performance](#), ACCJC applies a set of annual monitoring and evaluation approaches to assess member institutions' strengths, stability, and ongoing alignment with the Standards during the course of the accreditation review cycle. The Annual Report (AR) is one of the tools used for this process. Using institutions' self-reported data, the ACCJC Annual Report collects headcount information to monitor institutional growth (including growth in distance and correspondence education) and institution-set standards for key indicators of student achievement, licensure exam pass rates, and job placement rates.

To assist you as your institution prepares its responses, you can find additional information, data definitions, and a printable version of the 2024 survey questions at <https://accjc.org/wp-content/uploads/Annual-Report-Instructions-and-Questions.pdf>.

Technical Notes for the 2024 Annual Report Survey

The 2024 Annual Report collects data for the three-year period that includes 2020-2021, 2021-2022, and 2022-2023.

Additional information and data definitions are provided in the instruction text where relevant.

All questions with an * are required.

If a question is not applicable, please enter n/a.

Answers are saved automatically, and can be accessed and revised as many times as needed prior to submission.

Use the "Section Navigator" buttons on the next page to jump between sections.

Submitting the 2024 Annual Report Survey

To submit a final copy, follow the instructions in the Final Step page of the online survey. When the survey has been submitted, the College ALO and the individual completing the survey (if different) will receive email confirmation of submission and a copy of the survey responses. ACCJC will forward a final PDF copy of the Annual Report to the ALO and CEO for final review (and adjustment, if needed). If no corrections or adjustments are needed, the PDF copy will stand as the final, certified copy of the Annual Report.

This is the Section Navigator which will allow you to jump to any sections of the survey. You can complete the sections in any order and if you need to return to the main page, please use the back button.

To begin or return to a section, please click the **Answer** button.

The **Next** button at the bottom of this page will bring you to the final page of the survey. You will not be able to proceed until all sections of the survey have been completed.

If you can't complete a section in one sitting, click **Back** to navigate back to the section navigator to complete a different section.

Questions marked with an * are required.

5. Total unduplicated headcount enrollment for last three years:

For the purposes of this report, unduplicated headcount is defined as the total number of students (credit and non-credit) enrolled at the end of the general enrollment period (also referred to as first census date). The academic year should include leading summer, fall, winter, and spring terms. If your institution calculates the academic year differently for the purposes of monitoring annual enrollment, you may respond using your local calculation and describe your method in Question 18.

7. Do you offer Distance Education?

Yes

7a. Total unduplicated headcount enrollment in distance education in last three years:

Distance education is defined as education that uses technology to deliver instruction to students who are separated from the instructor(s) and to support regular and substantive interaction between the students and the instructor, either synchronously or asynchronously. For the purposes of this report, include only those courses that are 100% online in your calculation of unduplicated headcount enrollment for distance education. Do not include hybrid courses or courses in which all the class hours are face to face, but some material is posted online.

8. Do you offer Correspondence Education?

No

8a. Total unduplicated headcount enrollment in all types of Correspondence Education for last three years:

Correspondence education is defined as education in which (1) the institution provides instructional materials (and examinations on these materials), by mail or electronic transmission (including transmission via learning management system) to students who are separated from the instructor; and where (2) interaction between the instructor(s) and the student is limited, is not regular and substantive, and is primarily initiated by the student. Online courses or online portions of courses which primarily involve "paperwork" (e.g., reading textbook and other materials posted by the instructor, taking examinations, and submitting assignments) will fall within the definition of correspondence education rather than distance education. If the online portion of a class meets the definition of correspondence education, then even if the class also meets on site, it will be considered a correspondence education course for Title IV qualification purposes. Correspondence education is not considered distance education within the U.S. Department of Education definition (see question 8, above).

8b. The table below shows an auto-calculation of year-to-year changes in correspondence education enrollment for your institution based on the data entered on the previous page. If these data are incorrect, you may click the "back" button to revise.

For the purposes of the Annual Report, Job Placement Rate is defined as the percentage of students who are employed in the year following completion of a CTE (career-technical education) certificate or degree program. (This means that the denominator for the 2021-2022 job placement rate will be the number of students who completed the program in 2020-2021.) Report only those programs with a minimum of 10 students in the completion year. For example, if a program had 9 students complete in 2020-2021, you do not need to report a job placement rate for 2021-2022. Report only those programs for which reliable data are available. If your institution has defined its job placement rate differently than what is described above, you may complete this question using your local definition provided that you describe this definition in Question 19.

Our institution has programs that meet these conditions.
