Enrollment Data: Unduplicated Headcount Enrollment

5. Total unduplicated headcount enrollment for last three years:

For the purposes of this report, unduplicated headcount is defined as the total number of students (credit and non-credit) enrolled at the end of the general enrollment period (also referred to as first census date). The academic year should include leading summer, fall, winter, and spring terms. If your institution calculates the academic year differently for the purposes of monitoring annual enrollment, you may respond using your local calculation and describe your method in Question 19.

6b. Please list any individual degree-applicable credit program which has experienced an increase or decrease of 50% or more in the last year. (Enter N/A if this does not apply to your institution.)

The only programs that experienced a greater than 50% change in the last year are DANCE (+67%), SOCS (-50%), and TUTOR (-100%). All of these programs have extremely small 'N's,' and the large percentage changes are simply reflective of this fact. The numbers represent changes in the number of section offerings: For DANCE, the number of sections went from 6 in 2023-24 to 10 in 2024-25, as we were trying to provide students with some more opportunities to explore this area. I should note, though, that several sections actually ended up being cancelled in 24-25. The SOCS offerings dropped from 2 to 1, simply reflecting a departmental decision to offer one fewer class. The TUTOR program is on something of a hiatus, as we are revamping our organizational structure and determining which area will oversee tutoring. At any rate, the number of class offerings decreased from 2 to 0,

-----	----

If you answered no, skip to question 20.

19a. Job placement rates for students completing certificate programs and CTE (career-technical education) degrees for last three years available data:

For the purposes of the Annual Report, Job Placement Rate is defined as the percentage of students who are employed in the year following completion of a CTE (career-technical education) certificate or degree program. (This means that the denominator for the 2022-23 job placement rate will be the number of students who completed the program in 2021-22.) Report only those programs with a minimum of 10 students in the

completion year. For example, if a program had 9 students complete in 2021-22, you do not need to report a job placement rate for 2022-23. Report only those programs for which reliable data are available. If your institution has defined its job placement rate differently than what is described above, you may complete this question using your local definition – but please describe your definition and methodology in Question 19.

20. Please use the text box below to provide any comments or context regarding the data submitted in this report (optional, no word limit):

Job placement rates are derived from the California Community Colleges Chancellor's Office Core Indicator Reports. Only programs with at least 10 completers in the cohort year are included. Data reflect employment in the year following completion. Due to the one-year lag in reporting, the most recent year reflects prior cohort outcomes.

21. Reflecting on your Institution's student achievement(s), what efforts/initiatives/competencies have you found to be fundamental in supporting the recent successes you've observed/reported? Please describe any innovations and improvements along with a brief narrative of how it was achieved.
